

RGS Energy Applauds Today's Student Global Climate Strike

September 20, 2019

DENVER, Sept. 20, 2019 (GLOBE NEWSWIRE) -- RGS Energy (OTCQX: RGSE), the exclusive worldwide manufacturer of the visually stunning POWERHOUSE™ Solar Shingle System, expresses its strong support for #GlobalClimateStrike as millions of youth worldwide join marches and climate strikes today.

"We commend the global climate strike for raising awareness that climate change is a real and growing threat to America and nations around world," commented Dennis Lacey, RGS Energy's CEO. "It is inspiring to us to see our young generation engaged and we want to help them. Today, we are announcing a standing invitation to Colorado high schools to have interested students meet at our facility on a Friday of their choosing, to learn about renewable energy solutions from our teammates. Our hope is that with this additional education about renewables, it will help our youth further their mission."

Today, renewable energy now makes up a third of global power capacity according to the International Renewable Energy Agency. In the U.S., solar has ranked first or second in new electric capacity additions in each of the last six years, according to Solar Energy Industries Association (SEIA).

Interested Colorado school administrators who would like to schedule a Solar Immersion Day for their classes at RGS' headquarters in downtown Denver are encouraged to contact Justin Chinn 303-222-8453, or contact solar@rgsenergy.com.

About RGS Energy
